is it banksy?

The art located on Northeastern's campus does share an uncanny resemblance to some of the works by famous street artist Banksy. Both are graffiti works that have a black + white stencil quality. Additionally, a lot of Banksy's work features young children in standalone poses, making the one on Northeastern's wall fit right in. However, there is a quality that seems to be missing from the art, which is intention. Banksy is known for being a political and social artist choosing subjects + locations that serve a greater purpose. While the young boy is intriguing there is nothing that immediately indicates a greater societal inspiration [Expand]
